How was the ARSG meeting this week? I'm assuming this topic (list of other projects) came up at the meeting. Sunnyside has implemented millions of other response action in the watershed as part of the decree. All of these previous efforts, I believe, stem from the UAA report and a ranking. I'm still looking for this ranked list and the data they made their decisions upon. lets talk soon.

Didn't know if you have ever seen this list of all the remediation projects in the Basin. There's been about 60. There was one last year that needs to be added.
